Reservation: required  
Minimum: 4 people  
Cost: 50 euro per person

## WINEMAKER FOR A DAY WMD

WMD gives you the possibility to experiment your skill in making wine. For a day, you will be really the winemaker of your own wine having the chance to taste five different types of grapes sampled directly from their ageing barrels, blending them in different percentages and making attempts in order to find the final blend which fully satisfies you!

You will be accompanied by our winemaker who will give his valuable advices in how to make it. Everything will be held inside an ancient room, under the Villa, fitted with all the professional equipment suitable for blending wines. **This is not all..** The result will be really your own and unique wine: you will have the chance to personalize the bottles sending us your label as a digital image, a writing, a logo or whatever. At the end of the maturation (about a month) the bottles will be labelled and shipped directly to your address.

There are two different options to choose:

### Gold Option:
